

## FABArtistico Spec Sheet

### Printer Properties:

- Technology: Fused Filament Fabrication (FFF)
- Printing volume (15 x 20 x 20 cm)
- Extruders: 1
- Hot end: All Metal Hot end.
- Electronics: FabArtistico Electronics v1.0 powered by 8-Bit ARM Processor
- Heated Bed: No
- Screen: Full Colour Capacitive Touchscreen
- Supported files: Gcode
- Operating Sound 50 dB(A)
- Nozzle diameter : 0.4 mm
- Glass print surface (PEI print surface is optional)

### Physical Dimensions:

- Printer dimensions (without spool): 36x57x72 cm (WxDxH)
- Weight: 18 Kg
- Shipping Box Dimensions: 47x65x85 cm (WxDxH)
- Shipping Weight: 30 Kg

### Materials:

- Supported materials – PLA, ABS,
- Filament Diameter: 1.75 ± 0.05 mm
- Open Filament System: Yes

### Printing Properties:

- Layer height 0,1 – 0,5mm (depending on the nozzle diameter)
- Operating temperature 15°C – 35°C
- Extruder maximum temperature 290°C

### Electrical Properties:

- Input AC 100-240V, 50-60Hz
- Output 24V DC, 12A
- Power Consumption 350W
